

Is Your Spring Boot Team Waiting 20+ Minutes for Tests to Run?

Discover how your Spring Boot team can **cut build times, eliminate flaky tests, and ship with confidence** with a **free 45-60 minute session**.

Sound Familiar?

- ✗ Build times that kill productivity and slow feedback loops
- ✗ Flaky tests that fail randomly
- ✗ Fear of refactoring because tests might break

**Your team doesn't need MORE tests.
They need the RIGHT tests, running FAST.**

What Your Team Will Learn

- ✓ Why Spring Boot tests fight back (and how to fix it)
- ✓ Five quick wins to speed up your test suite
- ✓ Real-world patterns you can apply immediately

**Practical, actionable insights—
not theory.**

Session Details

Duration: 45-60 minutes (flexible to your schedule)

Delivery: On-site at your office or remote

Audience: Java/Spring Boot developers

Cost: **Complimentary** for your team

What's Included:

- Interactive presentation with live code examples
- Q&A time for your team's specific challenges
- Complimentary PDF takeaway for each participant

Your Speaker

Philip is the lead consultant at PragmaTech, helping Spring Boot teams transform testing from an afterthought into a competitive advantage. An international speaker, he's delivered sessions at Devoxx Belgium, Spring One in Las Vegas, Spring I/O in Barcelona, and Java User Groups across Europe.
