PRESENTED TO

Diegeo Bürgi

For successfully completing the full-day, hands-on workshop

Confidence In Every Commit: Essentials

Demonstrating the ability to build a fast, trustworthy Spring Boot test suite that gives the confidence to ship every commit to production.

- ✓ Write focused unit and sliced tests for Spring Boot applications
- ✓ Confidently use Testcontainers for real-world integration testing
- ✓ Understand and optimize Spring context caching for fast test execution
- ✓ Apply a pragmatic test strategy that balances speed, cost, and confidence
- ✓ Leverage AI-assisted testing and the latest Spring Boot testing features
